The DRIVING FORCE in innovation

THE DIRECTOR'S NOTE

What a thrilling winter! We are working hard to continue to offer you the best services and the top-quality products at the lowest prices.

With raw material in constant evolution and the global economy still representing a big challenge for all of us, our job isn't easy. But, at the end of the day, if we respectively manage our companies with intelligence, those challenges can become great opportunities.

This is our goal and we want to achieve it with you. We are inviting you to collaborate with us to go through the actual crisis, thus positioning ourselves for the future. Decisions made today are vital, and will influence our success tomorrow.

In this edition, we are proposing a review of our participation at the R+T 2009 Fair in Stuttgart (Germany). We also want to invite you to visit us at the next IDA show (April 21-25, 2009) in Nashville, Tennessee (USA), and at the next Building Fairs in BRNO (Czech Republic, April 21-25, 2009), where we will exhibit for the first time.

It's also a pleasure to introduce a new European Sales Representative for CANIMEX TORQUE FORCE, Mr. Alex Symons, who will cover Southern Europe and Northern Africa. Alex has a huge experience of our industry. I can guarantee that he will act as an efficient adviser for you.

Continued on page 2.

**YOUR PARTNER IN SUCCESS.
TODAY AND WELL INTO THE FUTURE.**

Continued from page 1.

This newsletter will also show you how close we are to you with our vast network of warehouses and distributors. We put a lot of energy in recent years to expand this network. You can now take advantage of it. We are proud to say that we are leading the way in customer responsiveness; just like high quality products, we think that it's an utmost asset for you and we gladly offer it.

We believe that only constant efforts will allow us to keep your trust.

*Canimex TORQUE FORCE...
Your dedicated OEM supplier.
Your partner in success.
Today and well into the future.*

Michel Beaudoin
Division Director – TORQUE FORCE
Canimex Inc.

R+T 2009: A GREAT SUCCESS FOR CANIMEX TORQUE FORCE

Last February (10-14), CANIMEX TORQUE FORCE exhibited at the R+T 2009 Fair in Stuttgart (Germany). A lot of visitors passed by our stand during the week. We were so pleased to meet our customers and we want to thank them for their visit.

Our renowned products were already known by our visitors because they have been buying those for years now, but with that exhibition, we had the chance to deepen our business relations. It was a great opportunity to talk about our company and, mainly, to increase our knowledge of our European business partners' companies. We took advantage of that event to improve our services, a goal we constantly pursue.

Satisfied customers are long-standing customers. We look forward to meeting you in a near future to continue strengthening our business relationship.

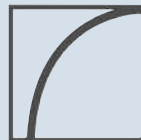

IDA 2009

CANIMEX TORQUE FORCE will participate at IDA EXPO 2009 in Nashville (Tennessee) next April. You are invited to visit us to discover all our renowned products and our vast range of services.

Come see us at booth 401 at the entrance of the show.

BUILDING FAIRS BRNO 2009

BUILDING FAIRS BRNO 2009

For the first time ever, CANIMEX TORQUE FORCE will participate as exhibitor at this trade show, held in Czech Republic from April 21 to 24, 2009. Our representatives will be more than pleased to meet you to introduce our company, to show our large European product line, and to talk about your diverse needs.

A DEDICATED OEM SUPPLIER NEAR YOU: WE ARE WHERE YOU ARE

In these days where the global prices of components are more and more critical to our customers to make it through these hectic times, CANIMEX TORQUE FORCE strives to reduce costs through its wide logistic network. Our goal is to minimize logistic costs by shipping parts directly from factories to strategic warehouses close to our customers.

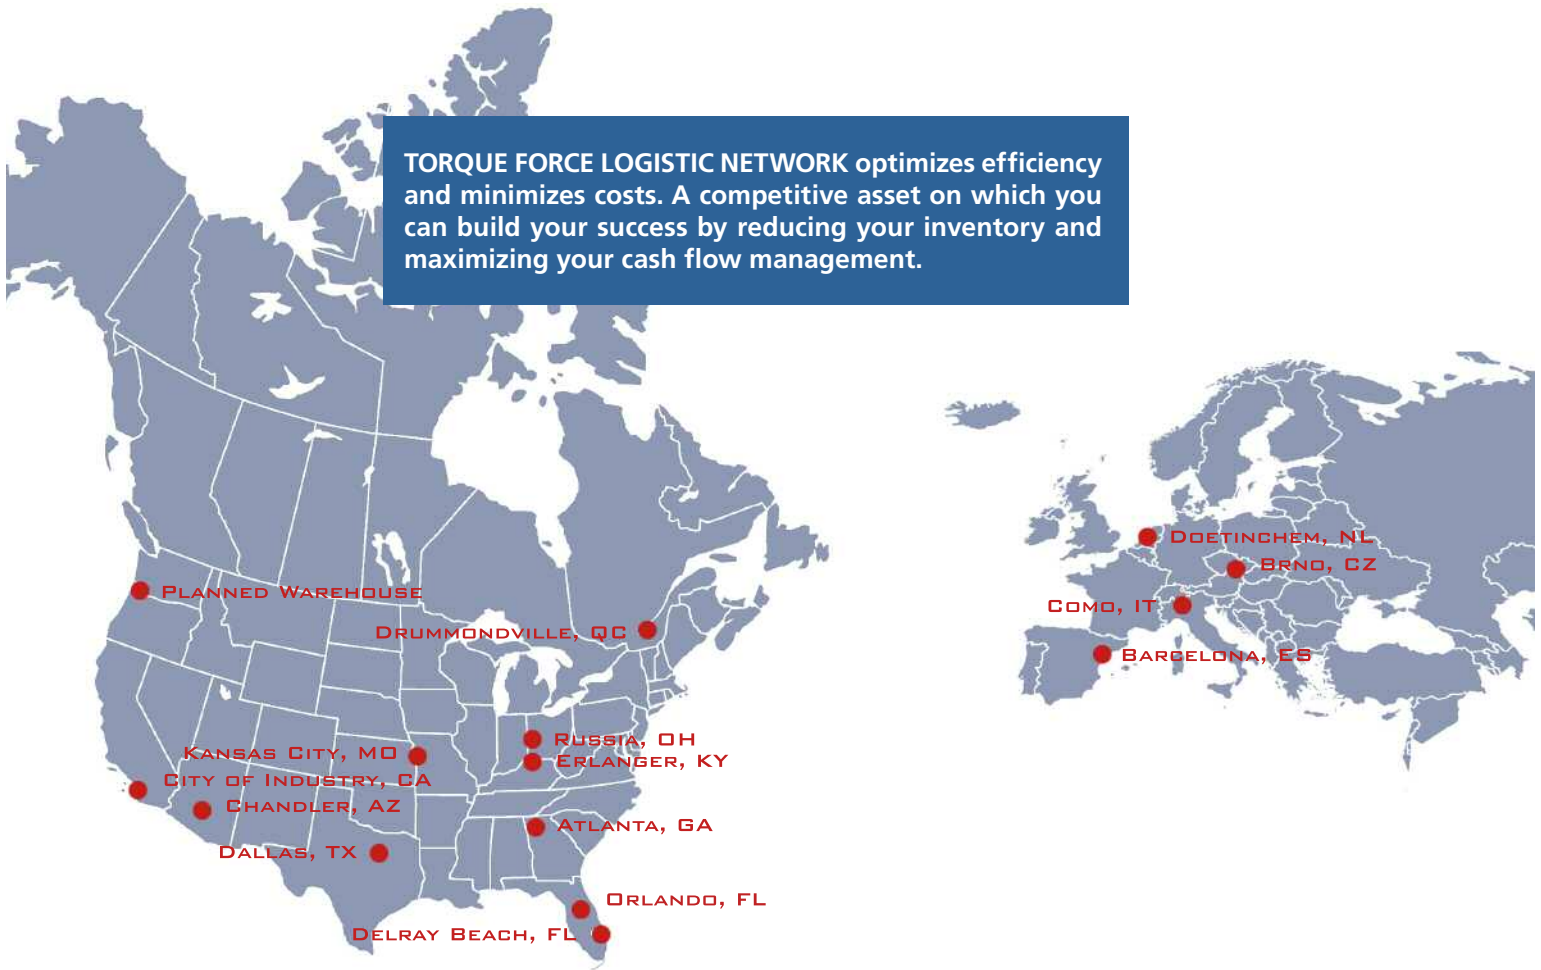

Until now, CANIMEX TORQUE FORCE has 9 warehouses in North America,

excluding its manufacturing and warehousing facilities in Drummondville (Quebec, Canada). In order to better serve dealers and service companies, CANIMEX has also established relationships with distributors throughout USA.

CANIMEX is taking great pride in its network of warehouses and distributors around the world. For several years now, we have been developing this network in order to constantly improve

our services. You will discover on the map shown below how close we are to you. One of our goals is to reduce our lead time to quickly respond to any request you may have.

Thanks to our extended network, we deliver any of our quality products just-in-time. Real just-in-time!

A NEW VAT REGISTRATION

As you can see on the map above, CANIMEX continues its expansion in Europe, where you can now find our products in four warehouses. In order to offer a service as a local supplier, CANIMEX TORQUE FORCE registered itself

for duty and taxes in all these countries (Italy, Spain, Czech Republic, the Netherlands) and is now considered as importer of origin for the products it is selling. Doing business with us is as easy as doing business with a local supplier.

With its state-of-the-art logistic network, CANIMEX wants to be your choice partner by offering the best possible service at the best price, being close to where you are...

A PROUD MEMBER OF OUR TEAM

Alex Symons
*Sales Representative for
Southern Europe and
Northern Africa*

With 19 years of experience in the door industry, Alex Symons is reinforcing CANIMEX TORQUE FORCE European Team. His territory covers Southern Europe and Northern Africa.

Based in Barcelona, he has been a pioneer in the sectional door business in Spain and Portugal. Alex is very acquainted with TORQUE FORCE products and is putting all his technical knowledge at his clients' disposal. He will be able to help you in various

languages, such as English, French, Spanish, German, Portuguese, Italian, and Dutch.

With the late George de Schwartz as mentor, Alex has become a reference for spring calculations and for practical solutions in complex door manufacturing or installation.
